Enabling Factors

- Reduction in LA budgets leading to lack of Community Leadership/support/ soloed working
- LA cuts to local grant funding
- Introduction of larger LA commissioned contracts
- Retreating LA CYP services with expectation of VCSE stepping in to meet rising needs
- Growing local demand V limited VCSE capacity
- Rising needs/ rising waiting times – stretched services – the need for early Intervention & prevention services
- Mass regeneration/ growing CYP population
- Increased risks for CYP, free of crime/safety - lack of supportive pathways/ community activities
